Corporate Package

Standard Package

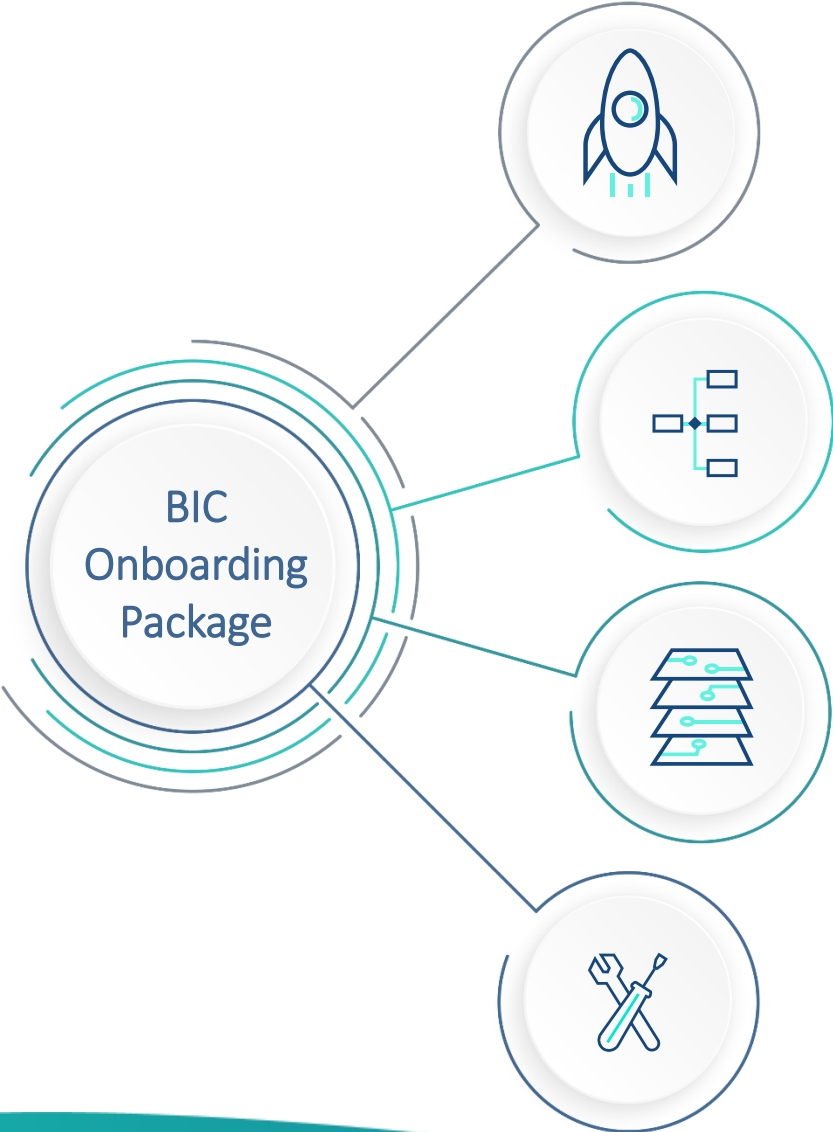

Essential Package

Choose your BIC Process Design Onboarding Package

... and create your underlying business process management framework

Description of BIC Process Design Onboarding contents (1/2)

Kickoff Meeting

ESSENTIAL STANDARD CORPORATE

In our kickoff meeting we will introduce all major participants, clarify the details regarding all work packages and the project plan. Furthermore, the communication plan, data exchange and project roles will be aligned.

BIC Process Design modeling pilot

ESSENTIAL STANDARD CORPORATE

Creating a first process model together from process landscape down to the process flow chart level will make it transparent and tangible which contents shall be included in your future process modeling approach.

BIC master data concept

ESSENTIAL STANDARD CORPORATE

The catalogue in BIC PD helps you to arrange your master data like roles, applications, documents. Together we clarify import possibilities, governance and regular maintenance of the needed master data for your initiative.

BIC configuration

ESSENTIAL STANDARD CORPORATE

After having defined your future process modeling approach we will adjust the necessary administrative settings in BIC fitting to your specific needs.

Description of BIC Process Design Onboarding contents (2/2)

BPM framework

ESSENTIAL STANDARD CORPORATE

This framework includes the summarized documentation of e. g. process and master data governance, process modelling conventions and BIC configuration. It serves as a basis for all people working on business process management. GBTEC best-practice templates accelerate the creation.

BPM role & authorization concept

ESSENTIAL STANDARD CORPORATE

Together we will describe all roles within the business process management approach regarding tasks, competences and responsibilities. The respective authorization roles will be recommended according to their tasks within our BIC products.

BPM training & rollout concept

ESSENTIAL STANDARD CORPORATE

To easily perform the BIC rollout in your organization we will clarify the needed training contents for all relevant BIC users as well as create a timeline including the necessary steps.

Onboarding Manager

ESSENTIAL STANDARD CORPORATE

Our experienced Onboarding Managers will guide you through the whole BIC and business process management introduction. They serve as your main point of contact for the duration of the onboarding and regular status meetings.
